

You should always be able to count on it. To take you to great parties in the summer. But also to be able to drive around safely in the winter. There are plenty of reasons to take care of it. That's right. Your car. There's nothing more annoying than a car that won't start or is far too hot for you to sit inside.

The solution is a dependable and affordable garage. One that is quick and easy to construct without having to use heavy tools and machinery. One with a modern look and that's been made with the environment in mind. You don't have to worry about the maintenance because the durable materials make it unnecessary.

STRONG AND DURABLE

QUICK AND EASY TO ASSEMBLE

NO MAINTENANCE

SAFE

MODERN LOOK

ECOLOGICALLY SOUND

20-YEAR WARRANTY

Telluria garage

STEEL OF LIFE

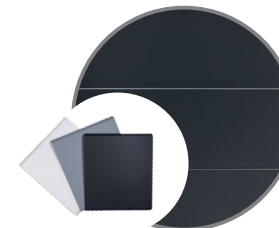

Drainage

The garage is equipped with a drainpipe that drains the rainwater away.

Ventilation

The ventilation grille ensures that the room is sufficiently ventilated so that any exhaust fumes or other disturbing odours can easily find their way out.

Colours

The garage is available in three modern colours. White, light grey, and anthracite. There's a colour to suit everyone's preference.

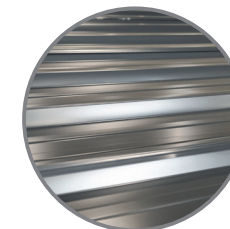

Window

The window provided in the garage has double glazing and brings some light into the darkness.

Garage door

The electric door ensures ideal ease of use on both departure and arrival. The motor is equipped with LED lights so you never come home to a dark garage.

Insulation

The roof of the garage is equipped with insulated steel sandwich panels. The free space between the inside and outside wall allows for full insulation of the garage.

Lock

Lastly, let's emphasise safety. The garage has a solid latch and a sturdy lock that together blend beautifully into the gorgeous design of this garage.

External dimensions: 538X358 cm
Internal dimensions: 510X330 cm
Height: 260cm
